How to find your Microsoft Entra tenant ID

The **Tenant ID**, also known as the **Directory ID**, uniquely identifies your organization's Microsoft Entra tenant. You may need this identifier when configuring the **Microsoft Teams Operator Connect** service. You can find your Tenant ID using the **Microsoft Entra admin center**.

Microsoft Entra admin center

1. Sign in to the **Microsoft Entra admin center** using an account with at least the **Global Reader** role.
2. In the left-hand navigation menu, select **Entra ID**.
3. Select **Overview**, and then select **Properties**.
4. Scroll to the **Tenant ID** section. You can copy the Tenant ID and use it when configuring the Microsoft Teams Operator Connect service.
